

POLICY

IRRIGATION AND SPRINKLING SYSTEMS

It is the policy of the Board of County Road Commissioners of the County of Kalamazoo (Board) to prohibit the installation of irrigation and/or sprinkling systems in the public road right-of-way except by permit and then only in the landscaped areas of boulevards and the center islands of cul-de-sacs.

All irrigation and/or sprinkling systems both permitted in the right-of-way and those on private property outside of the public right-of-way must be designed and operate so that no water is sprayed onto the traveled portion of the roadway as that water creates a hazardous unsafe condition to the motoring public.

The Board including all contracted to this board have no responsibility or liability for moving, maintaining, replacing or upgrading any irrigation and/or sprinkling system located in the public road right-of-way nor does this Board have responsibility or liability in the event of damage to irrigation and/or sprinkling systems located in the public right-of-way.
